Let me again caution you against peddlers, agents, quacks and "over the counter" drug and jewelry store glasses. When your eyes need attention always consult a specialist. You cannot afford to be careless with so important a faculty as vision. Each and every one of your neighbors that I have fitted with glasses will testify to the care and skill I exercised in their case and the benefits they have received. They have found my methods to be the most reliable and my treatment to give the utmost satisfaction. My prices for glasses if you should need them are the lowest consistent with good service and material.
